

## *Designed with Simplicity in Mind*

Why should backflow maintenance be a chore? The Ames Series 200B and 400B backflow prevention assemblies are designed with ease of serviceability in mind and include:

- Independent access covers
- Fully guided check valve poppet assemblies
- Replaceable, push-in seats
- Chloramine resistant elastomers
- Top mounted test cocks
- No special tools required for servicing

Available in sizes 1/2 to 2 inch. Stop struggling with old style backflow preventers and make the change to the valves designed with simplicity in mind.
