Insulated Barrier Heating PEX Repair Tape

Sizes: 3/4" x 33' (19.1 mm x 10.1 m)

Insulated Barrier Heating PEX Repair Tape designed to repair damage to outer jacket of Insulated Barrier Heating PEX pipe.

Specifications

Insulated Barrier Heating PEX Repair Tape is a heat shrink thermoplastic for repairing damage to outer jacket of Insulated Barrier Heating PEX pipe.

Installation Parameters

Insulated Barrier Heating PEX Repair Tape must be installed in accordance with all Watts installation procedures, including information provided in the Insulated Barrier Heating PEX Installation Manual.

1. Locate damaged area.
2. Make sure outer jacket of pipe is clean and dry.
3. Wrap the repair tape around the damaged area of the outer jacket, overlapping each preceding layer by about 2-3/4" (69.9 mm).
4. Use a heat gun or mini torch with soft yellow flame (Do not use a blue flame!) to gently shrink the repair tape.
5. Press the repair tape, wearing protective gloves.
6. The damaged jacket is now sealed watertight.

⚠ WARNING

Keep hands away from any open flame. Do not touch – surface of shrinkwrap will be hot. Wear gloves when handling.
