 Contractor's P.O. No. _____

All Tank Drawings Must Be Signed Off And Accompany PO Before Product Will Be Manufactured.

T14 Double Wall Bolted Top Tank

Specification

Orion T14 Double Wall tank shall be cylindrical, seamless, stress and defect free, rotationally molded construction to uniform wall thickness from virgin PE resins conforming to ASTM D 1248, with **single FIP inlet with dip tube, outlet and vent as standard.** All penetrations shall be heat fused to tank walls. Double wall construction shall consist of two nested Orion T5 tanks, sized to allow for a minimum 2" interstitial space, with supporting ribs to center internal tank. **Standard non-load bearing tank covers shall be gasketed and bolted to each tank.**

Connection Locations/Sizes

Custom Locations:

Indicate desired locations in the small circles of the top-view diagram below.
 I-Inlet O-Outlet V-Vent

Custom Sizes:

Indicate 2", 3", 4", or 6" in corresponding connection-type box.

Inlet Outlet Vent

Tank Extension

For some buried tank installations an extension may be required to maintain effective tank capacity or easy access. Please consult Orion technical support to determine if an extension is required and check tank extension box above.

Note: Tanks are made to ±0.25 in. tolerance.

Please verify all selections with your local Orion rep - tank products and accessory equipment are non-returnable.
