**Partner
with
Watts Water**

...and **Save Time & Money**

At Watts Water, we offer:

- One point of contact for the most comprehensive family of plumbing, heating, and water quality brands in the industry, from curb key to fixtures
- Bundled rough plumbing packages that offer significant cost savings versus working with multiple manufacturers
- Deep roots in the industry—we've been manufacturing high-quality products since 1874
- Long-standing relationships with all the major wholesalers in North America, and an established network of knowledgeable and experienced sales representatives throughout the country
- Leadership in providing high-quality, reliable, and compliant Lead Free products to meet the new national Lead Free law, ensuring you don't put your business at risk
- A diverse family of companies that offer multiple products to enhance a building, from rainwater harvesting and radiant floor heating systems to water quality & conditioning solutions

MAKE US YOUR SINGLE SOURCE

We offer a full spectrum of residential plumbing products, including:

- Backflow preventers
- Water pressure reducing valves
- Mixing valves
- Control valves
- Relief valves
- Pipeline strainers
- Expansion tanks
- Ball valves
- Shower drains
- Tankless water heater kits
- Hose bibbs
- Dielectric unions
- Wall hydrants
- Gas connectors
- Flood protection control products
- And much more

Transform a Multi-Family Dwelling

into a **Safe & Efficient Building**

Living Areas

- Reverse osmosis filtration system
- Electric floor warming
- Gas connectors
- Tempering valves
- Stainless steel shower drains
- Washing machine shutoff valves
- Shutoff valves

Fire Protection Systems

- Automatic control valves
- Backflow preventers
- Check valves
- Float valves
- Gate valves
- Pre-engineered valve stations
- Transition risers
- UL/FM ball valves
- UL/FM fire service strainers

Outdoors & Underground

- Backflow enclosures
- Backflow preventers
- Cast iron roof drains
- Cleanouts
- Freeze-resistant wall hydrants
- Insulated piping systems
- Pressure relief valves
- Rainwater harvesting systems
- Roof drains
- Scupper drains
- Snow melting systems & controls
- Trench drains
- Vacuum breakers

Drainage Systems

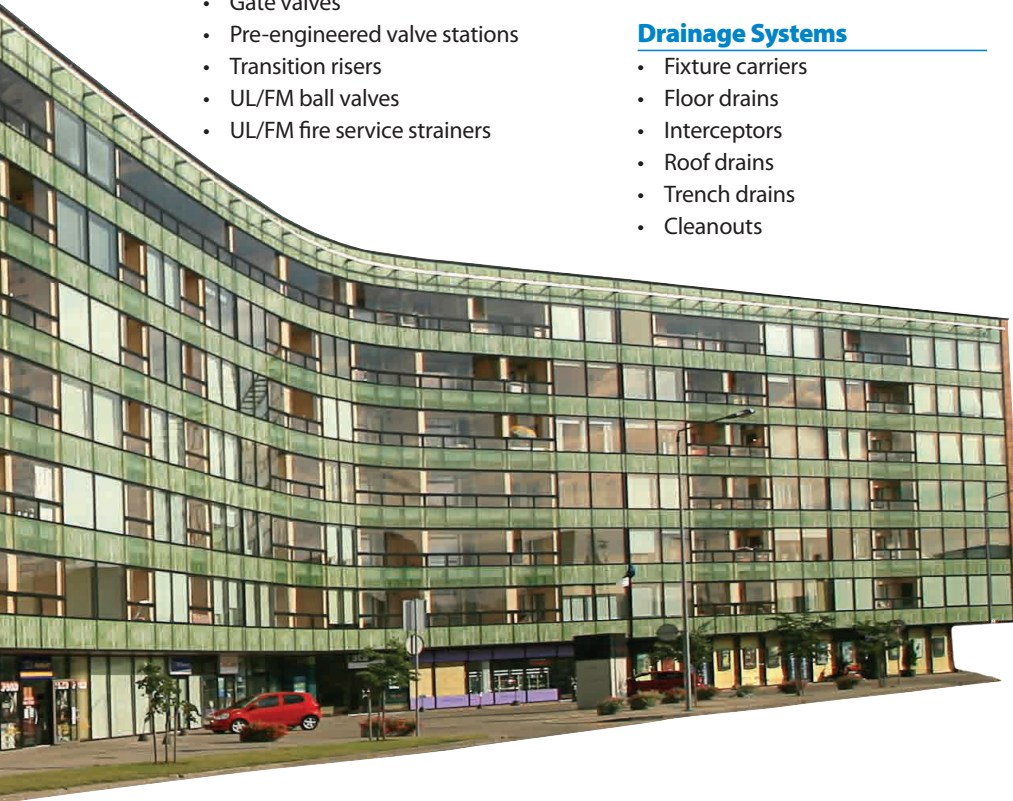

- Fixture carriers
- Floor drains
- Interceptors
- Roof drains
- Trench drains
- Cleanouts

Mechanical Room

- Anti-scale systems
- Backflow preventers
- Balancing & relief valves
- Ball & butterfly valves
- Flood protection shutdown control valves
- Gate, globe & check valves
- Gauges
- High temperature alarm and shut-downs
- Pipeline strainers
- Pressure reducing valves
- RO water filtration systems
- Water filtration systems
- Water heaters
- Water softeners

HVAC Systems

- Anti-scale systems for tankless water heaters
- Automatic air vent valves
- Automatic control valves
- Backflow preventers
- Combination fill valves & backflow preventers
- Electronic temperature controls
- Expansion tanks
- Feed water regulators
- Float valves
- Flow measurement & balancing valves
- Flow switches
- Gas connectors
- High efficiency boilers
- Hydronic & electric floor warming systems
- Hydronic manifolds & controls
- Mixing valves & systems
- Multi-stage boiler controls
- Purge & drain valves
- Wafer & silent check valves
- Radiant hydronic heating systems
- Safety relief valves
- Steam traps

Potable Water Systems

The Watts Water family of companies offers a variety of products and solutions designed to improve system efficiency and ensure the safe control of domestic cold and hot water systems.

Backflow Preventers

Control Valves

Mixing Valves & Systems

Pressure Regulators

Relief Valves

Water Filtration & Softening Systems

Strainers

Anti-Scale Systems

Shutoff Valves

HVAC Systems

The Watts Water family of companies offers a wide range of HVAC systems and solutions, including heating and cooling controls, radiant heating and snow melting systems, backflow preventers, boilers, water heaters, and tempering valves.

**Heating, Cooling &
Snow Melting Controls**

**Radiant Heating & Floor
Warming Systems
(Hydronic & Electric)**

Steam Traps

**Snow/Ice Melting Systems
(Hydronic & Electric)**

Backflow Preventers

Water Heaters

Boilers

Gas Connectors

Balancing Valves

Fire Protection Products

The Watts Water family of companies offers a variety of fire suppression products designed to protect residents and property. These products are easy to install, flexible in design, and meet all requirements of the National Fire Protection Association (NFPA).

Transition Risers

Double Check/Double Check Detector Valve Assemblies

Reduced Pressure Zone/Reduced Pressure Detector Assemblies

Automatic Control Valves

Fire Pump Relief Valves

Fire Pressure Relief Valves

Check Valves

UL/FM Fire Service Strainers

UL/FM Ball Valves

Drainage Systems

The Watts Water family of companies offers a wide range of solutions for the safe drainage of sanitary sewer and storm water, as well as for the capture of rainwater for reuse for a facility.

Fixture Carriers

Trench Drains

Roof Drains

Floor Drains

Interceptors

Rainwater Harvesting Systems

Channel Drains

Cleanouts

Green Roof Drains

Water Quality & Conditioning Products

The Watts Water family of companies offers a variety of water quality and conditioning products designed to treat water for safe and efficient use in residential applications. .

Anti-Scale Systems

Water Softeners

**Whole Building
Reverse Osmosis
Systems**

**Point of use Reverse
Osmosis Systems**

UV Disinfection Systems

Media Filtration Systems

Drinking Water Systems

**Replacement Filters
and Cartridges**

**Replacement Parts
and Accessories**

Leading the Way ***on Lead Free***

Watts Water Technologies lead the way on the development of Lead Free products for the plumbing industry. Our 30,000-square-foot U.S.-based foundry was constructed in 2013 to exclusively produce Lead Free products.

The History of **Watts Water**

Watts Water Technologies has a long history in the plumbing & heating industry—for 140 years the companies and brands of Watts Water have been leaders in quality & innovation. Today, the Watts Water family of companies offers one of the most diverse product lines in the world for residential, commercial, industrial, and municipal settings.
