Watts Price List

Brass Fittings & Accessories

Effective March 30, 2015

All prices supersede previous issues, are temporary
and subject to change without notice.

Your Discount

Throughout this book you will see products highlighted with **LEAD FREE***. These are Watts products that comply with Lead Free laws in California, VT, MD, and LA. As well as Federal "Reduction of Lead in Drinking Water Act" requirements. For more information on our Lead Free products, please visit our Lead Free informational web site at WeAreLeadFree.net.

*The wetted surface of this product contacted by consumable water contains less than 0.25% of lead by weight.

Electronic is Green!

Shutoff Cocks	50-51
Dielectric Unions	52
Water Meter Adaptor	52

FREIGHT TERMS: All shipments are F.O.B. shipping point. Shipments from factory less than 1000 lbs. are F.O.B. factory. Factory shipments of \$1200 and over within the continental U.S.A. will be prepaid and allowed when made at the lowest motor carrier transportation rate.

TERMS OF SALE: All sales are F.O.B. shipping point.

PAYMENT TERMS: The invoices are due and payable 30 days from the date of invoice.

PURCHASE ORDER FORMS: Orders submitted on customer's own purchase order forms will be accepted only with the express understanding that no statements, clauses, or conditions contained in said order form will be binding on the Seller if they in any way modify the Seller's own terms and conditions of sales.

SPECIAL PRODUCTS: Orders for special or modified products are non-cancelable.

LIMITED WARRANTY: Watts Regulator Co. (the "Company") warrants each product to be free from defects in material and workmanship under normal usage for a period of one year from the date of original shipment. In the event of such defects within the warranty period, the Company will, at its option, replace or recondition the product without charge.

THE WARRANTY SET FORTH HEREIN IS GIVEN EXPRESSLY AND IS THE ONLY WARRANTY GIVEN BY THE COMPANY WITH RESPECT TO THE PRODUCT. THE COMPANY MAKES NO OTHER WARRANTIES, EXPRESS OR IMPLIED. THE COMPANY HEREBY SPECIFICALLY DISCLAIMS ALL OTHER WARRANTIES, EXPRESS OR IMPLIED, INCLUDING BUT NOT LIMITED TO THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE.

The remedy described in the first paragraph of this warranty shall constitute the sole and exclusive remedy for breach of warranty, and the Company shall not be responsible for any incidental, special or consequential damages, including without limitation, lost profits or the cost of repairing or replacing other property which is damaged if this product does not work properly, other costs resulting from labor charges, delays, vandalism, negligence, fouling caused by foreign material, damage from adverse water conditions, chemical, or any other circumstances over which the Company has no control. This warranty shall be invalidated by any abuse, misuse, misapplication, improper installation or improper maintenance or alteration of the product.

Some States do not allow limitations on how long an implied warranty lasts, and some States do not allow the exclusion or limitation of incidental or consequential damages. Therefore the above limitations may not apply to you. This Limited Warranty gives you specific legal rights, and you may have other rights that vary from State to State. You should consult applicable state laws to determine your rights. SO FAR AS IS CONSISTENT WITH APPLICABLE STATE LAW, ANY IMPLIED WARRANTIES THAT MAY NOT BE DISCLAIMED, INCLUDING THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE, ARE LIMITED IN DURATION TO ONE YEAR FROM THE DATE OF ORIGINAL SHIPMENT.

SERVICE POLICY: For inoperative products beyond the warranty period, we assume no liability for replacement of valves due to service conditions beyond our control.

RETURNED GOODS: No material shall be returned without authorization. When credit is issued it will be at the price charged, or prevailing price if lower, less handling charges based on costs of reconditioning, boxing, etc. However, a minimum 25% handling charge will apply. A minimum handling charge of \$20.00 is applied whenever the 25% handling deduction does not total \$20.00. Products which are obsolete or made to special order are not returnable.

NOTE: Prices and terms are subject to change without notice and supersede all previous quotations. The right is reserved to change or modify product design or construction without prior notice and without incurring any obligation to make such changes and modifications on products previously or subsequently sold.

Information

Watts offers a wide variety of flare fittings including Standard 45°, Inverted 45°, POL, Gas Range, and Fine Thread ($\frac{9}{16}$ " x 24) for space heater applications.

Flare fittings are designed for higher pressure applications and are commonly used for gasoline, grease, oil, water, vacuum, air lines, L.P., and natural gas. Flare fittings can also be used for refrigeration, air conditioning, and other applications involving hard to hold liquids and gases using forged nuts.

Recommended for use with copper, brass, aluminum, and welded steel hydraulic tubing that can be flared. Not recommended for use with polybutylene or soft plastic tubing.

Installation instructions

Cut tubing square and put nut onto tubing. Flare tubing with 45° flaring tool and hand tighten nut over flare and onto fitting body. Wrench tighten for positive metal-to-metal seal. Do not over tighten.

Specifications

Temperature: -65°F to 250°F

Working Pressure: Temperature and type of tubing must be considered for proper fitting selection.

The following is based on 70°F with copper tube. POL and Gas Fittings have a maximum working pressure of 250psi.

Copper Tube OD	Tube Wall Inches	psi (Flare Fittings)
$\frac{1}{8}$ "	0.030	2800

Cooler Fittings

Information

Watts offers a variety of cooler fittings and needle valves for use with humidifiers, pneumatic and hydraulic instrumentation, and similar applications. These fittings and valves are appropriate for industrial and automotive use but are not recommended for LPG or gas applications.

Installation instructions

Needle valves should always be installed so that the line pressure is directed toward the seat of the valve. For installation instructions regarding the connection points please refer to the catalog section for the type of fitting used on that connection point.

Specifications

Temperature: -65°F to 250°F (40°F to 140°F for water applications)

Working Pressure: 150psi

Information

Watts offers a wide variety of pipe fittings and nipples. Nipples are available in a variety of lengths and thread sizes and fittings are offered in a number of configurations using both male and female pipe threads. Many popular pipe fittings are offered in both barstock and cast materials. All tapered pipe threads are manufactured to the highest quality standards and tolerances.

Watts pipe fittings and nipples are recommended for use with brass, copper, or iron pipe. They are commonly used on oil, natural gas, water, and air lines.

Installation instructions

Place Teflon® tape on the male pipe threads and screw the thread into the female fitting until threads stop and the connection becomes tight. Do not over tighten.

Specifications

Temperature: -65°F to 250°F

Working Pressure: 1,000psi on all barstock fittings and 125psi on all cast fittings at the temperature range stated above.

Hose Barb Fittings

Information

Watts offers a variety of styles of hose barb fittings including elbows, tees, and adaptors. Hose barb fittings can be used with any tubing soft enough to accept a clamp style connection including vinyl and rubber.

Installation instructions

Cut tubing square and slide hose clamp onto the hose end. Push the barbed fitting into the hose until the end of the hose reaches the hex or stop ring, a non-petroleum lubricant may be used to assist in inserting the fitting into the tube. Move hose clamp over hose and barb and tighten the clamp with the appropriate tool (depending on the style of clamp) until a positive connection is made. Do not over tighten.

Specifications

Temperature: -40°F to 160°F

Working Pressure: 150psi. Do not exceed the recommended pressure rating of the tubing used.

***A bulk package consists of 100 loose pieces, not 100 bagged units.
#The inner carton reflects the minimum purchase quantity for that item.
Orders will be rounded to the nearest inner carton quantity.*

Garden Hose Fittings

Information

Watts Garden Hose Fittings are ideal for use with any standard garden hose (3/4"). Many garden hose fittings are offered in standard adaptor and connector styles as well as a swivel model. The swivel garden hose fittings allow the hose to spin freely of the threaded connection and prevent accidental disconnection as well as hose binding and kinking issues.

Installation instructions

Thread the male end connection onto the female threaded fitting until a hand tight connection is made. Do not over tighten.

Specifications

Temperature: -35°F to 100°F

Working Pressure: 75psi. Do not exceed the recommended pressure rating of the garden hose.

***A bulk package consists of 100 loose pieces, not 100 bagged units.
#The inner carton reflects the minimum purchase quantity for that item.
Orders will be rounded to the nearest inner carton quantity.*
