

SlabHeat™

ELECTRIC INDOOR SLAB HEATING

SlabHeat™ is engineered with the capability to produce enough BTUs to heat a slab, the space, and the surface people walk on. Regardless of size, shape, or thickness, SlabHeat is the way to provide heat to just about any environment.

Benefits of SlabHeat

- Tough polyurethane outer jacket offers superior flexibility, abrasion and tear resistance, impact resistance, resiliency, and better low temperature stability than the PVC used in other products.
- Engineered by a company with decades of experience in hydronic and electric radiant heating
- Comfortable, even heat without the drying effects of forced air heating
- Reliable, durable design
- No vents or duct work
- Maintenance-free
- Efficient
