Tubing for Any Application

Not all jobs are the same. Sometimes you need tubing that can stand up to jobsite traffic or that is impossible to kink. Other times you need tubing that works with your favorite expansion tool or is simply a match for a cost-sensitive installation. Watts Radiant has you covered for these and more.

POTABLE

WaterPEX^a

Potable application tubing designed to work with a range of connection types, including F1960 cold expansion fittings

WaterPEX^b

Cross-linked polyethylene potable application tubing without an oxygen barrier

RADIANT

RadiantPERT[™]

Strongest, most flexible hydronic tubing on the market designed to work with a range of connection types, including F1960 cold expansion fittings

RadiantPEX⁺

Economical choice with protective outer layer making it easy to pull through joists

ONIX[™]

Extremely durable and kink-free even under the harshest conditions

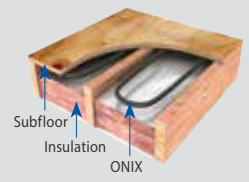

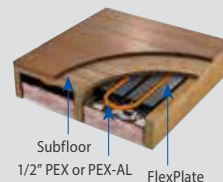

RadiantPEX-AL[™]

Aluminum layer allows tubing to hold its shape for faster installation

Full Range of Install Options

Hydronic under subfloor
